HORSE HEAVEN.—In his novel of "Horse Heaven," Henry Ward Beecher discourses as follows concerning the future life of horses: "What do you think becomes of horses. Hiram, when they die?" said Rose. "Well, Miss Rose, it's my opinion that there's use for horses hereafter, and that you'll find there's a horse heaven. There's scripture for that, too."

"Ab?" said Rose, a little surprised at these confident assertions. "What scripture do you mean?" "Why, in the book of Revelations! Don't it give an account of a white horse, and a red horse and black horses and gray horses? I've allers s'posed that when it said Death rode on a pale horse, it must have been gray, 'cause it had mentioned white ones already. In the ninth chapter, too, it says there was an army of two hundred thousand horsemen. Now, I should like to know where they got so many horses in heaven if none of 'em that die off here go there? It's my opinion that a good horse's a darn sight likelier to go to heaven than a bad man!"

DAN BRYANT.—The San Francisco papers generally do not seem to regard as a first-class artist Dan Bryant, who is now playing an engagement at Maguire's Opera House. He does Irish business, appearing as Handy Andy, Dr. O'Toole, etc., and judging from the criticisms on his performances, he is not as acceptable to San Franciscans as other Irish comedians who have appeared in that city. However, San Francisco audiences are fickle, and a worse comedian than Dan Bryant might make a more successful hit if he made his first bow to an audience when Washoe stocks were higher than at present.

WON'T LAY.—Not many days ago a young lady from the country went into the store of a merchant and asked if he wished to purchase a couple of chickens, at the same time throwing a pair of live ones on the counter. "Why yes," he replied, "but will they lay there?"—meaning would they remain on the counter a few moments. "Lay there!" indignantly retorted the rustic beauty; "No, sir! they won't lay anywhere; them's roosters!"

THE SCHELL-NAGLEE CASE.—The suit of Mary A. Schell against General Naglee, in San Francisco, for one hundred thousand dollars damages, for a breach of marriage contract, was dismissed yesterday, on motion of the plaintiff's attorney. The costs of the suit were taxed to the plaintiff.

A LEIPZIG bookbinder announces that he is about to publish the works of the late Emperor Maximilian. They will form several volumes, of which four are at present in the hands of the printer. This publication takes place at the express desire of the Emperor Francis Joseph.

ON thirty-three locomotives in the Paris Exhibition, only one is from America, and it has taken the gold medal. The French house of Cressot has taken the grand prize for locomotives.

In Washington a woman shot a man because he did not marry her; in Cincinnati another shot one because he did. What can a bachelor do to save his bacon?

The cost of collecting the revenue in the year 1866, was over six and a quarter millions of dollars, being \$640,000 more than for the previous year.

THE NEXT PRESIDENT.

In the political world the question of
the next Presidential nomination is the
one now of most general interest. To be
sure, we look eagerly for the result of the
State elections to come off on the Atlantic
side during the coming months of Octo-
ber and November, but these are consid-
ered as minor matters compared with the
Presidential nomination for 1868. With
the Radicals Grant appears at present to
occupy a first position, and yet his retic-
ence on great national questions has
been such that leading Radicals, if not
ready to distrust his Radicalism, are cer-
tainly waiting in enthusiasm for this great
military candidate. True, Grant Clubs,
composed chiefly of men who heartily in-
dorse Congressional reconstruction, have
been formed throughout the country, but
as if conscious that Grant is not an uncon-
ditional Radical, the founders of these
Clubs have dropped the "Grant" prefix,
and in California have called their organi-
zation "Freedom's Defenders." With
such men there may really be something
in a name. It is clear that Grant is not a
general favorite with the leaders of his
party in the East, for Greeley, Butler,
Phillips and others have sounded the
alarm against him, and the "President-
makers" are already at work to secure his
defeat. Grant's indorsement of Sheridan
may be regarded as a Radical bid, but
many such acts would be required on his
part to obtain for him with the Radicals
atonement for the sin of having made a
tour with Johnson to the tomb of Douglas.
Sheridan is really a formidable candidate
against Grant, having by his military
course of late made himself acceptable to
the most truculent of the Radical party.
But the patronymic is not a shibboleth
with Radicals,—it is rather too Celtic for
the New Englanders, who are relied upon
to elect a Radical President—and Sheri-
dan's Catholicism, diluted though it may
be, would not prove much of a card with
the majority of New England people.
Butler's Radical record is good, especially
his New Orleans record, while his Bermu-
da Hundred and Great Bethel exploits
may not have added laurels to the mili-
tary branch of the Butler family. Colfax
of course has Presidential aspirations, as
he has had for years, but the prospect of
realizing them is none of the brightest.
The man who succeeds Andrew Johnson
must have worn epaulettes in the late re-
bellion, and he must have worn them hon-
orably. Colfax made his fight against the
rebellion in Washington City at paying
figures, and for the Presidency Colfax,
using a provincialism, "won't do." We
live in a military age, and the same spirit
that called Jackson to the Presidential
chair in 1828, will insist on electing a mili-
tary man to the same position in 1868.
Grant, unless he blunders in his present
position, may be the Radical candidate for
the Presidency next fall; and present ap-
pearances indicate that the Democrats and
Conservatives will select a military candi-
date in the person of General Hancock.

LARGE MASSES OF NATIVE SILVER.—The
Swedish papers state that in the Kongs-
berg silver mine a lump of silver has re-
cently been found weighing 400 pounds.
The mines of Kongsberg, in Norway, have
previously afforded numerous magnificent
specimens of native silver. One speci-
men from these mines, now in the royal
collection at Copenhagen, weighs up-
wards of 500 pounds. Two masses were
obtained, some twelve or fifteen years
ago, which weighed severally 238 and 436
pounds. A specimen of native silver was
once taken from the Batopilas mines, Mex-
ico, which weighed 490 pounds. The
largest specimen ever found, however,
was from the mines of Huautaya, in South-
ern Peru. This most magnificent of all
specimens of native silver weighed 1,800
pounds.

The expense of publishing the New
York Independent over its income, during
the twelve years of its existence, has been
\$40,000.

OUR SAN FRANCISCO DISPATCH

SAN FRANCISCO, September 17.

The Mexican residents of this city had
a gala day yesterday. The Russ House,
where the Mexican Consul resides, was
splendidly decorated with flags of all na-
tions. At sunrise and sunset salutes were
fired, also a salute from Alcatraz at noon.
by order of Gen. McDowell. A grand
display of fireworks took place in the
evening in front of Dashaway Hall, where
ceremonies were held, which were of a
highly interesting character. The hall
was beautifully decorated, and a number
of distinguished American naval and mili-
tary officers were present. R. Guy Mc-
Lellan delivered a patriotic address.

Dan Colton was arrested last evening,
accused of robbing a soldier of eight hun-
dred dollars in greenbacks and a gold
watch and chain.

Stephen Chesholm is lying in St. Mary's
Hospital in a precarious condition, from the
accidental discharge of his gun. He had
been out gunning with a party of gentle-
men, and on his return to the city at-
tempted to remove his gun from the wagon
by the muzzle, which was discharged,
terribly shattering his left arm.

John Day, a sailor, was accidentally
knocked overboard and drowned from the
sloop Chelsea Smith, opposite Al-
catraz, on Friday last. His body has not
been recovered.

The French steam transport, Dorado,
four guns, arrived from Tahiti yesterday.
The gentlemen's furnishing store, next
to the Pony Saloon, on Kearney street,
took fire last evening but was extinguished
by a police officer, with very little dam-
age.

Greenbacks 69@70.
Judge Duvalle this morning divorced
Emma D. Marquez from Jose Amalio
Marquez, on the ground of desertion.

Henry Sullivan, a boy eighteen years of
age, who was indicted for arson, by set-
ting fire to the Industrial School for the
purpose of escaping from that institution,
was tried yesterday and acquitted.

The body of Alexander Pope, found
dead near the house of H. C. Banta, on
the plains in San Joaquin county, was
brought to this city for burial. A rope
was tied around the horse's neck and his
arm, and other indications showed that he
had been dragged on the ground until dead.

Edward A. McGrath, a passenger on
the schooner Brilliant, which arrived from
Mendocino last night, died suddenly
while the vessel was entering the harbor.

SAN FRANCISCO FOR TRADE.—The *Mer-
cantile Gazette* contains an article on the
growing importance of the fur trade in
San Francisco, from which we extract the
following:

The fur trade on this coast has gradually
concentrated in San Francisco, but the
skins, until the last three or four years,
have been sent to New York and the man-
ufactured furs returned to this city for
sale. That state of affairs has now passed
away. Within the past four years two
leading manufacturers of furs have been
established here, and the choicest Russian
and American furs find a market in San
Francisco at very low prices, and are man-
ufactured in a style not second to the
most celebrated European productions. It
is now the fact that the best styles of furs
can be bought in this market cheaper
than at the East or elsewhere. The ac-
quisition of Sitka by this Government has
opened a broad field for enterprise in this
direction. The Russian-American Fur
Company had a close monopoly of the
business there. That has now passed
away, and the fur resources of that Com-
pany are already in the hands of American
agents. The control of the Hudson Bay
Company over the fur trade of this coast
has also declined since the American traders
have found the way to reach the In-
dians and Trappers. The opening of the
Amoor River, also added to the resources
of the fur trade. The extension of the
fishing trade has also been an aid since the
twenty vessels fitted out for fishing all re-
turn with a greater or less number of skins,
particularly the splendid sables and sea
otter from Kodiak. The whalers also
bring supplies from Russia and Behring's
Straits. In all those regions the agents of
San Francisco dealers are at work collect-
ing furs on terms far cheaper than by any
means they can reach the Eastern cities.
Oregon and Washington Territories sup-
ply martin, beaver, otter and very good
mink, but Sticksen River supplies the best.
Cariboo affords the best Hudson's Bay
sable. Very fine sable comes from the
coast up north to Kodiak. The Amoor
River and Behring Straits send us the best
Russian sables, sea otter and ermine. In
dealing with the Indians, on this northern
coast, a blue pioneer blanket is the stan-
dard of value—one worth \$5 being equal
to four sable skins; other articles, as pow-
der, matches, flour, sugar, tea, fancy cal-
ico, guns, etc., are all mediums of ex-
change.

Dr many, says the *Californian*, the de-
feat of the Republicans in this State will
probably be regarded as an evidence or
indication of a change in the balance of
political power. We may therefore, very
naturally look for a transfer of allegiance
on the part of many ambitious politicians,
who have no other aim than political suc-
cess, and who naturally desire to connect
their fortunes with the predominant party.

GEOLOGICAL SURVEY.—Professor Whit-
ney, is engaged in the geological exami-
nation of Nevada.

"AN ITEM OF INTEREST."—Computation
of interest at 7.30 per cent. is a trouble-
some operation for many people who have
never observed that 730 is just twice 365.
To those who have observed the latter fact,
it may also have occurred that 7.30 per
cent. per annum is just two cents a day for
every hundred dollars.

ENGLAND imports more cotton from In-
dia than from the United States. During
the five years preceding the war in this
country the average yearly value of cot-
ton imported into England from India was
\$19,313,789. In the five succeeding years
the average rose to \$129,423,230. The
quantity imported during the year 1866 is
the largest known, amounting to 1,847,770
bales worth upward of \$165,000,000.

SENATOR STEWART has returned, says the
Virginia Tresspass. He confirms the re-
ports which had reached us, of an election
having been held in California on the
4th. Is unable to state the exact result
however—as he did not take much interest
in the figures of the returns.

THIRD DISTRICT.—Johnson, the Demo-
cratic candidate for Congress in the Third
District, has about 1,203 majority for Harri-
son.

ONE MORE IN THE FIELD.—A new Boot
and Shoe store opened by S. Kozminsky,
Mill street, next door to Lathrop's Jewe-
lry store.—I have just received a new
stock of goods, consisting of gents boots,
shoes and gaiters; ladies, misses and chil-
dren's shoes, gaiters, slippers, etc; miners
rubbers and leather boots of every style
and quality; also fine calfskin dressing
boots of every description. This stock
was expressly purchased for this market,
at prices twenty-five per cent. less than
any other store in this county. I can as-
sure the public that my stock is not
bought at auction. Come one and all if
you want to save money, by calling at the
new store of S. Kozminsky, Mill street.
Remember the place, next to Lathrop's
Jewelry's store. sept-18

A MILLION MORE!

A MILLION MORE.—It has been the custom of
New York merchants to reward the faithful
services of their clerks and assistants by admitting
them to share the profits of the establishment they
had assisted to build up and maintain, or by far-
nishing means to establish those they favored in
new localities. Having been clerks and salesmen
themselves, they well know how to mark the ap-
preciation of the services of their assistants, who
follow in the foot-prints of their principals. Late-
ly three young gentlemen have arrived here from
New York City, to commence business on their
own account, backed by one of the noted wealthy
firms of the metropolis. The premises recently
occupied by a well-known firm have been engaged
by the new comers who will commence with a

Dear Sir: Your favor 17th ult. at hand. Your
policy was issued May 22, 1865, for \$1,000 on the
"Ten-Year Plan." If you are unable to pay your
premium this year, you can select any one of the
following privileges to which you are entitled by
your policy.

First. Use your dividends to pay your premi-
ums. \$84.54 now stands to your credit as the
cash value of the ad itions to your policy.

Second. Surrender your policy, and we will
give you a paid-up policy for two-tenths of the
original, and transfer the additional now to your
credit. This will give you as follows:

Policy (two tenths of \$1,000) \$400 00
Additions of 1866 98 25
Additions of 1867 120 96

Paid up insurance \$619 21

Which will pay dividends in all future dividends of
the Company during the existence of the policy.

Third. Surrender your present policy, and we
will pay you the present value of it, \$383 77.

Fourth. Surrender one-half of your policy;
apply the cash value to the payment of premiums
on the remainder. The dividends will be paid to
pay the next and future years, and you may then
be able to remain insured for a larger sum than by
any other plan.

GUY R. PHELPS, President.
W. S. OLMSTEAD, Sec. retary.
HARTFORD, April 15, 1867.

H. E. BROOKS, Esq.:

Sir: Yours of 11th is received. If you have
paid two full premiums on your policy, you will
be entitled, by its conditions, to a paid up policy
for two-tenths of the original, or \$300, on its sur-
render and to two dividends of \$10 each; but if
you have made but half payments, and given
notes for the other half, you will be required to
pay the balance between your notes and the divi-
dends before you can receive the adjusted policy
of \$300.

The difference is \$33.27. The dividends are
used, according to the conditions of this kind of
insurance, upon the annual life rates, instead of
the rate paid.

We do not refund money for surrendered poli-
cies, but paid-up insurance for the amount paid
for as above.

Respectfully yours,

(Signed,) GUY R. PHELPS, President."

The Non Forfeitable feature of the ten-payment

policies has contributed more than any thing else

to their deserved popularity. And the chief value

of non-forfeitable insurance consists in the right of

the insured when, by reason of adverse circum-

stances, he is unable to pay any more premiums,

to receive a paid up policy for the proportion of

insurance already paid for. Now, if the insured,

before he can claim a paid up policy, in addition

to what he has already paid, must pay an amount

considerably more than his annual cash premium,

as is the practice with Note Companies

there is practically no such thing as non-forfeitable

insurance upon the note system.

Upon the cash system as adopted by the Mutual

Life of New York, the insured can always receive

a paid-up policy, without any additional payment

on his part. Upon a ten or five payment, or en-

dowment policy, at any time after a single pay-

ment of prem um, and upon the life plan after pay-

ment of two annual premiums. Or the insured

can receive the full value of his policy in cash,

which in many instances amounts to more than all

premiums paid. Upon the note system, a policy

never has a cash value. For proof of the above,

see foregoing letters.

TO THE UNFORTUNATE!
New Remedies! New Remedies!
DR. GIBBONS'S DISPENSARY,
616 Kearny St., corner Commercial,
SAN FRANCISCO.
ESTABLISHED IN 1854.

**FOR THE TREATMENT OF SEX-
ual and Seminal Diseases** such as Gon-
orrhea, Gleet, Stricture, Syphilis in all
its forms, Seminal Weakness, Impoten-
cy, etc. Skin diseases of years stand-
ing and Ulcerated Legs, successfully treated.
Horrible Diseases.
How many thousands of persons, both male
and female, are there who are suffering out a miserable
existence from the effects of secret indulgence, or
from virus absorbed into the system. Look at
their pallid, emaciated and disfigured faces, and
their broken down constitutions, disqualifying
them for the happiness of marriage, or the enjoy-
ment of life. In this horrid situation thousands
suffer until death closes the scene. Let parents,
brothers and friends attend to those who are suf-
fering with any of these horrible, life-destroying
maladies—see that they are cured and cured
before it is too late. Send them immediately to
Dr. Gibbons, a physician who has made private
diseases his special study for years and who is
certain to cure the most inveterate cases, without
necessary or any injurious drugs. It is important
to those afflicted, or to those who are interested in
the welfare of their friends to be careful of the
many pretended doctors who infect all cities, pub-
lishing their skill in curing all diseases in a few
days, imposing upon the public by using the
names of eminent physicians from Europe and
other places. Be therefore careful and make strict
inquiry as you may fall into the hands of those
charlatans.

Seminal Weakness.
Seminal emissions, the consequence of self-abuse.
This is a disease of the most revolting and indelicate
nature, and is the result of an almost un-
limited extent, producing, with unerring
certainty, the following train of morbid symptoms,
unless counteracted by scientific medical measures:
viz: Saline countenance, dark spots under the
eyes, pain in the head, ringing in the ears, noise
like the rattling of leaves and rattling of char-
coal, uneasiness about the loins, weakness of the
limbs, continued vision, blurred intellect, loss of
confidence, diffidence in approaching strangers, a
dislike to form new acquaintances, a disposition to
sulk, loss of memory, hectic flush, a pim-
pled face, nervous eruptions about the face, furrowed
forehead, cold, cough, consumption, night
sweats, incontinence and frequent urination. If
not relieved the sufferer should apply im-
mediately either in person or by letter, and have
a cure effected by his new and scientific method
of treating this disease, which never fails of effecting
a quick and radical cure. Dr. G. will give One
Hundred Dollars to any person who will satis-
factorily prove to him that he was cured. This com-
pensation will be paid by the San Francisco Quacks.
DOCTOR GIBBONS is responsible, and will
give to each patient a written instrument binding
himself to effect a radical and permanent cure, or
make no charge.
Persons at a distance may be CURED AT
HOME by addressing a letter to Dr. G. Gibbons, stat-
ing case, symptoms, length of time disease has
continued, and have medicines promptly forward-
ed, free from damage and postage, to any part of
the country, with full and plain directions for use.
For Ten Dollars sent in registered letter, or through
Wells, Fargo & Co.
Address: DR. J. G. GIBBONS, 616 Kearny street,
corner Commercial, San Francisco. Post Office Box
257.

Caution to the Unfortunate.
Beware of the San Francisco quacks and pre-
tended doctors who, with bogus scientific dis-
tinction, dupes the unwary. Some of these self-styled doc-
tors, whose names are to be found in the daily
and weekly newspapers of San Francisco and
other places, are tradesmen and become lazy
to work at their trades. Some are timid, slow-
witted, newspaper carriers, intelligence office
keepers, etc. Look over the San Francisco Direc-
tory and you will not find their Medical Institu-
tion, but you will find their former occupations in
it. Look at the Directory for 1882 and 1883. The
only way to avoid imposition is to make inquiry—
it will cost you nothing, and may save you many
dollars. For, as advertising physicians in eight
cases out of ten are located, there is no safer in
trusting any of them until you know whom and what
they are. Dr. Gibbons does not deceive people by
extraneous titles, certificates, pretended pa-
tient letters, &c. Dr. Gibbons will satisfy per-
sons who may call at his office of his ability to
treat diseases that he proposes to cure.
Consultation FREE.
